

Metacrylics[®]
energy efficient coatings

Quickset[™]

Work Faster.

Save Labor on Your Metacrylics Projects.

Metacrylics offers a QuickSet[™] option on your specification-grade acrylic coating system.

This upgrade provides:

- Same performance in ponding conditions as our standard system. Metacrylics acrylic systems withstand ponding conditions, and ponding is not excluded from any warranty.
- QuickSet[™] versions of our acrylic coatings can set up in as low as 4 hours under typical environmental conditions. (Consult your Metacrylics representative for specific information).
- Rain resistant in 30 minutes!
- Systems for all roofing surfaces.
- No Zinc Oxide
 - Better adhesion in ponding conditions
 - Higher performance fungicides for increased mold and mildew resistance
- Same Metacrylics warranties available up to 30 years.
- Apply with standard roof coating sprayers (one part), or rolled.
- Available QuickSet Products
 - Extreme Weather White Acrylic QuickSet
 - Extreme Performance White Acrylic QuickSet
 - Extreme Weather Acrylic Clear Base QuickSet
 - Extreme Weather Acrylic Gray Base Quickset
